Experience

HubSpot

Frontend Engineering Co-op — React, Redux, CSS, JS/TS

Cambridge, MA

January 2022 - Present

- Contributing to the Editor Platform team

PeachPay, Inc.

Product Designer — Figma

Ames, IA

February 2022 - Present

- Working on company branding to help the company transition into Series A funding
- Created a standard CSS styling template to help engineers work more efficiently
- Designed new interactable animations for the PeachPay button

MIT Press

Graphic Designer — Figma

Cambridge, MA

April 2020 - Present

- Working with Professor Achuta Kadambi and Professor Ayush Bhandari to design figures for their textbook
- Created 40+ figures about computational imaging, computer vision and machine learning
- Managed time in a fast-paced environment, delivering multiple figures on 2-3 days notice

Rubrik, Inc.

Software Engineering Intern — Scala, Python, Bash, SQL

Palo Alto, CA

September 2021 - December 2021

- Coded a one-click checklist for support and field teams to ensure the deployment of Oracle snappables
- Reduced communication latency on customer-filed defect investigations through script automation
- Automated a configuration report that identifies any unsupported or misconfigured environments
- Interacted with Rubrik's internal APIs to build a framework that runs checks at the host and database level

Atlassian

Frontend Engineering Intern — React, CSS, JS/TS

Mountain View, CA

June 2021 - September 2021

- Led an investigation to see if embedded pages can work in Trello, documenting any gathered information
- Prototyped embedded Confluence pages inside Trello with the team's product designer
- Shipped production code and attached analytics to render Smartlinks in Trello's highlights section
- Independently found a better alternative to a significant refactor that the team thought would be required
- Shadowed product managers and designers and received mentorship in presenting to stakeholders

Volunteering

exploretch.la — React, CSS, JS/TS, Figma

- Managed the website for a club aimed to inspire high schoolers from underserved communities
- Mentored underclassmen in HTML, CSS, JS, and React for them to manage the website post graduation
- Worked on various designs, such as shirt designs, instagram posts, and the exploretch.box
