Experience

HubSpot Cambridge, MA
Frontend Engineering Co-op — React, Redux, CSS, JS/TS January 2022 - Present

· Contributing to the Editor Platform team

PeachPay, Inc. Austin, TX
Product Designer — Figma February 2022 - Present

· Working on company branding to help the company transition into Series A funding
· Created a standard CSS styling template to help engineers work more efficiently
· Designed new interactable animations for the PeachPay button

Rubrik, Inc. Palo Alto, CA
Software Engineering Intern — Scala, Python, Bash, SQL September 2021 - December 2021

· Coded a one-click checklist for support and field teams to ensure the deployment of Oracle snappables
· Reduced communication latency on customer-filed defect investigations through script automation
· Automated a configuration report that identifies any unsupported or misconfigured environments
· Interacted with Rubrik's internal APIs to build a framework that runs checks at the host and database level

Atlassian Mountain View, CA
Frontend Engineering Intern — React, CSS, JS/TS June 2021 - September 2021

· Led an investigation to see if embedded pages can work in Trello, documenting any gathered information
· Prototyped embedded Confluence pages inside Trello with the team's product designer
· Shipped production code and attached analytics to render Smartlinks in Trello's highlights section
· Independently found a better alternative to a significant refactor that the team thought would be required
· Shadowed product managers and designers and received mentorship in presenting to stakeholders

Volunteering

MIT Press Cambridge, MA
Graphic Designer — Figma April 2020 - Present

· Working with Professor Achuta Kadambi and Professor Ayush Bhandari to design figures for their textbook
· Created 40+ figures about computational imaging, computer vision and machine learning
· Managed time in a fast-paced environment, delivering multiple figures on 2-3 days notice

exploretech.la UCLA, Los Angeles,, CA
Webmaster + Graphic Designer — React, CSS, JS, Figma May 2020 - Present

· Managed the website for a club aimed to inspire high schoolers from underserved communities
· Mentored underclassmen in HTML, CSS, JS, and React for them to manage the website post graduation
· Worked on various designs, such as shirt designs, instagram posts, and the exploretech.box
